

Heavy-Duty Shipping Sacks (HDSS)

Amax provides high-performance heavy-duty shipping sacks (HDSS) engineered with a multi-layer coextrusion film structure to meet the most demanding technical requirements. Our HDSS bags offer:

- Superior toughness to prevent failure during drop tests
- High tear resistance for secure handling and transport
- Excellent stiffness for added durability
- A wide heat-sealing range for efficient Form-Fill-Seal automation
- Robust processability with high puncture resistance

We also offer custom designs featuring high barriers, shrinkage control, and enhanced tear strength. Contact our sales team for more details.
